ALIGN THE STARS

Constellé is a light 2-player card game where players race to deduce the stars.

Each player is given nine cards, numbered 0-8, shuffled facedown in front of them. The goal is to line them up, in order, without looking at them.

Players take turns revealing 2 cards to their opponent and asking questions.

Aligned cards are flipped over and locked in. Tokens act as memory aids.

At the start of each turn, players MAY risk it all to reveal ALL of their facedown cards. If they are ALL aligned, they win. Otherwise, they lose.

Abstract Puzzle

- Induction/Deduction
- Competitive Risks
- Light Memory Aspects

COMPONENTS

30 tarot-sized cards
12 memory tokens
1 rulebook

Star Questions

- Which cards are aligned?
- Are my cards neighbors?
- Are my cards reflections?
- Which is greater?

Asked in order. Your turn ends with any affirmative answer.

Alternative Modes

Includes expanded setup options and alternatives to ratchet up gameplay from light-weight to mid-weight.

Players may rearrange the order of their facedown cards at any time, but no peeking!
